DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-10 are rejected under 35 U.S.C. 102(b) as being anticipated by USP 5,668,102 to Severns et al. (herein referred to as "Severns").

Severns teaches a compound that embraces the instantly claimed compound (col. 6, lines 27-33). When $n=1$; $R=C_1-C_4$ straight or branched alkyl or an aryl group; R'_2 =hydrogen; R''_2 =straight or branched alkenyl; and R'''_3 =4 carbon straight or branched alkyl, the compound reads on that instantly claimed. The compound may be either a cis or trans isomer (col. 7, lines 53-55). The disclosed composition is a perfumed fabric softener composition (abstract; col. 3, lines 23-28). The compound may be utilized in an amount of 0.1-15% by weight which would inherently render a fruity-green odor.

Response to Arguments

3. Applicant's arguments filed 5/21/2003 have been fully considered but they are not persuasive.
4. In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., allylic alcohol) are not recited in the rejected claim(s). Although the claims are interpreted in light of the

Art Unit: 1743

specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

Applicant further contends that the compound of Severns is used as a fragrance delivery compound rather than conferring its own odor. However, since the compounds of Severn are the same as that instantly claimed, they would inherently possess the ability to render its own fruity-green odor.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
